1.0 General

The quality plan defines the quality practices, resources and activities that are applicable to (your project).

2.0 Scope

The quality plan is a summary of operations that are applicable to (your project).

3.0 Quality Plan Inputs

The Company captures all requirements of the Customer as well as applicable statutory or regulatory requirements, statement of work, specifications and Customer correspondence as part of the **Proposal Development & Contract Review Procedure**. Requirements are reviewed to ensure that the Company has applicable capabilities prior to start of work on the project. When the requirements for products and services are changed, the Company applies the **Proposal Development and Contract Review Procedure** to ensure Responsible Authorities are aware of changes. Applicable documents are revised according to the **Configuration Management Procedure**, including this quality plan.

4.0 Quality Objectives

The Company performs all quality plan functions to achieve conformance with Customer requirements. Deviations are approved by the Customer prior to implementation.

5.0 Responsibilities

Responsible Authorities oversee the project to ensure issues are identified and recorded.

Solutions are transmitted to and resolved by [REDACTED]

Management has empowered all employees to [REDACTED]

The Company's Project Manager has overall responsibility for the successful execution of the project, including conformity with Customer requirements and meeting quality objectives.

The Company's Quality Manager is responsible for [REDACTED]

The Customer primary contact is: [NAME]

(Insert your Organization Chart if desired)

6.0 Control of Documented Information

Documents are controlled according to the **Documented Information Procedure** to ensure the information on them is [REDACTED]

[REDACTED] Documents are reviewed and approved prior to release and only the latest versions are available to users. Previous versions are stamped "Superseded" and legacy documents are segregated and retained for historical purposes.

17.0 Audits

Internal quality audits are conducted to ensure [REDACTED]

[REDACTED] The internal audit process is fully defined in the *Internal Auditing Procedure*.

18.0 Work Details

(Guidance Note: Tailor this section to address key elements of the project. A definable feature of work is a task that is separate and distinct from other tasks, has separate control requirements and may be identified by different trades or disciplines, or it may be work by the same trade in a different environment. This list should be agreed upon during the management meeting.)

(Guidance Note: For instance - list each work element in "bullet format" from your Contract or Request for Quote/Proposal.)

Remove the above guidance notes prior to release of the quality plan.
