"Why Developers Use ionCube" - Screenshot of Testimonials Recorded on ioncube.com

We've used ionCube Encoder Pro since PHP 4 back in 2004, and continuously update to keep up or fall behind. ionCube Encoder Pro is the very best investment for security that can't be surpassed.

Jennifer and Frank, JnF Specialties

Jennifer and Frank through JnF Specialties and qualitycontrolplan.com have applied ionCube since 2004 with our best effort, which is still kicking at two locations:

Our Lite demo URL:

https://www.onlinequalitysystem.com/eqmslite/

Our very well used demo URL:

https://www.onlinequalitysystem.com/efficientqms/

We offer a free download of our Lite eQMS at:

https://www.quality-control-plan.com/product/paperless-quality-plan/

See below our Linkedin URL to learn more about how we used Efficient QMS(tm) with ionCube protection in a real-world application for projects like the NASA Einstein Mission named Gravity Probe B. My employer (EPT) used eQMS to support manufacture of complex products for NASA, ESA, KARI, and more just like GP-B.
